Re:	09/857,822	CC:	

Examiner Phan,

As we discussed on the telephone, the above-identified patent application has been allowed, and we would like to make sure that all the references we submitted to the Office are cited on the front of the patent.

We noticed that one of the entries of the 1449 submitted January 14, 2002, has a strikethrough even though the entry itself is initialed. (There is also an annotation of "Unavailable.") Moreover, the Office Action that returned the 1449 did not indicate that the reference had not been considered.

Enclosed is the following:

- 1) A copy of the IDS submitted January 14, 2002, including a photocopy of the postcard,
- (2) transmittal sheets, IDS, 1449, and a copy of the reference at issue.
- 2) A copy of the returned postcard with the mailroom stamp and no interlineations, thereby indicating that all the references were received by the Office.
- 3) The returned 1449 with initials on all entries, but with one of the entries having a strikethrough and the annotation of "Unavailable."
